

PAINTINGS SCULPTURE INSTALLATION

Selected Artwork & Recent Projects

ERIK OTTO

ABOUT

ABOUT THE ARTIST

Erik Otto is an American visual artist with over 17 years of working in the creative disciplines of painting, sculpture, and installation. His artwork has been exhibited across the globe and currently held in multiple private collections.

His work utilizes color, light, and space to tap into the human experience. At the core, his atmospheric compositions are inspired by the visceral elements of life — emotive strokes that embody the fluidity of water and circular shapes that echo cycles of the sun, the moon, and regeneration. Often improvising, the rhythmic movement and experimental nature of his work directly reflects the effort of seeking balance between a burdened physical world and an intentional spiritual journey. Depicting moments of stability and balance within landscapes that revel in uncertainty, Otto's work — simultaneously minimal yet vastly complex — embody themes of transformation and inner exploration as a response to an unnecessarily complicated social climate filled with distress.

ERIK OTTO

ABOUT

ABOUT THE WORK

Erik Otto's work frequently extends beyond the canvas, from site-specific murals to immersive works embedded in the urban landscape. In addition to his fine art practice, Otto has learned to translate his vision with increased scale using a variety of materials for a growing list of clients to produce collaborative and creatively driven environments designed to invoke imagination through the use of color, light, and space.
